LARGE OPTIONS

PRODUCT FEATURES

This adjustable banner stand is constructed of sturdy aluminum. The stand has a gear mechanism that swings high quality graphite poles out on the left and the right side of the banner to form an X shape. The stand is light weight and weighs from 3 to 5 lbs. It is height and width adjustable with 4 hooks on durable latch adjustment for adjusting the height of the stand. Soft rubber feet give the stand a more finished and professional look. As the stand is height adjustable, you can put tension on the graphite poles to give your banner a very tight, flat, clean look. CUSTOM SIZES AVAILABLE
